EXPERIENCE

Freelancer, Port-Harcourt — *Fullstack Developer*

January 2022 - PRESENT

I developed and maintained web applications using Html5, Css, Tailwind Css, Javascript, ReactJs, Nodejs, Express, Mongodb, Postgresql.

I designed and implemented RESTful APIs to facilitate seamless communication between the frontend and backend..

I implemented authentication and authorization mechanisms for the backend for security of user's data using JWT.

I integrated third-party APIs and services to enhance the functionality of the application.

I refactored the code base to optimize the application.

I implemented continuous integration and deployment (CI/CD) pipelines using git.

Loc Tech I.T Institute, Port-Harcourt — *Web developer Intern*

October 2020 - December 2021

I participated in an intensive coding bootcamp, honing my programming skills and collaborating with other students to develop innovative projects.

Community Secondary School Ojiegbe, Ebony — Teacher (NYSC PPA)

August 2019 - August 2020

I.C.T Instructor
